Governor Scott Walker (WI, R)

- **Governor Scott Walker (WI)** quickly improved policies and practices and made it a key point in his "State of the State address." He has expanded Project SEARCH, which will help young people with disabilities go straight into jobs instead of a life of dependency. He has become a role model for the **expansion of opportunities** for people with disabilities.

- Wisconsin PROMISE to improve services for youth SSI recipients and families (Department of Workforce Development).

Gov. Walker with Lisa Derx (VP, Best Buddies) and Jennifer Laszlo Mizrahi (President, RespectAbility)
As part of the *Blueprint For Prosperity* outlined in Governor Walker’s State of the State speech, he announced plans to expand Project SEARCH, which is a program that helps young people with disabilities transition from high school to the workplace. The expansion would increase the number of participating business by 20 from seven over the next three years.

Governor Walker recently signed legislation to increase the number of people served by the Division of Vocational Rehabilitation by 6,000. This will allow the state to reduce or eliminate the waiting list of persons with disabilities, who are seeking assistance with jobs skills training and advocacy, so they can enter the workforce.

During the Year of A Better Bottom Line, Governor Walker is directing state agencies to focus on building, recognizing, and promoting public and private programs and organizations, improving employment opportunities for people with disabilities including veterans and students.

Priorities for the Year of A Better Bottom Line include overcoming barriers to employment for people with disabilities which may include: transportation issues, employer participation, adaptable workplace challenges, costs relating to the launch of opportunities within a company, retention, and general awareness and knowledge of advantages.

The Year of A Better Bottom Line is inspired by the 2012-13 National Governor’s Association initiative promoted by former NGA Chair, Delaware Governor Jack Markell.

Wisconsin's Governor has launched a new campaign "Wisconsin, Open for Business" to make clear that Wisconsin is committed to business expansion. Wisconsin's skilled workforce and strong work ethic are keys to that effort.

Manufacturing has a strong presence in the state and it is expected for that sector to continue to be a major part of the economy.

Through CWI efforts, Wisconsin is finding new ways for business and industry to work with government to improve the state's position in the global economy.
